01 — THE SYMBOL

One unbroken **i + n**

Both letters are drawn as a single, unbroken ribbon — the **i** flows down, curves through the baseline and rises into the arch of the **n** without ever lifting the pen. One continuous line speaks to a continuous journey: the patient guided, step by step, toward growth. The teal dot is the spark of intelligent guidance.

One unbroken line

A single stroke of constant weight traces the whole monogram. The i descends and sweeps through a rounded valley on the baseline, then climbs into the n's arch — a true semicircle on an 18-unit radius. Only the spark dot floats free.
